PROFILE

Product-minded full-stack engineer with 4+ years shipping production software for clients across hospitality, travel, film, education and finance. I take projects from brief to deployment: Next.js/React front-ends with a strong design eye, Python and Node back-ends, security-aware defaults, and AI-augmented workflows (Claude, Gemini, MCP) that turn days of manual work into minutes. Background in detection engineering and SOC automation aligned to MITRE ATT&CK. Trilingual (English C2, French B2, Arabic native).

15+	**4+ yrs**	**15 days → 2 min**	**17**

EXPERIENCE

Freelance Full-Stack Engineer & AI Workflow Engineer — Self-employed

Mar 2021 – Present · Marrakesh (remote)

- Designed, built and deployed **15+ production websites and web apps** for clients in hospitality, travel, film production and education — full lifecycle from discovery and UX to deployment and maintenance (Next.js, React, TypeScript, Tailwind, Vercel).
- Shipped **multilingual products** (EN/FR/ES/IT, with Arabic and Tifinagh scripts) with server-rendered SEO, structured data and conversion flows (WhatsApp quotes, Cloudbeds booking, enquiry funnels).
- Built a **private ClickUp-style production-operations platform** for a media agency, centralising shoots, edits, posts and podcast episodes from planning to delivery; deployed login-gated for security.
- Automated a hotel's **monthly income reporting** by connecting Cloudbeds and Poster through Claude in Chrome — **15 days of manual data entry reduced to under 2 minutes**.
- Built **automated QA pipelines** (Playwright + Robot Framework MCP driven by Claude Code) that replace manual test cycles and produce test reports and logs on their own.
- Improved client operational efficiency by **20–35%** through custom automation tools and workflow integrations; deployed and maintained apps on AWS, DigitalOcean and Vercel.

Founder — Automate (automate.ma)

2026 – Present

- Founded an AI-automation agency for Moroccan SMEs; built the brand and Next.js 15 site, and delivered social-media and prospecting automation workflows on Claude, n8n and MCP for two beta clients.

Freelance Security Engineer — Detection & SOC Automation — Self-employed

Mar 2022 – Present

- Built open-source detection-engineering tooling aligned to **MITRE ATT&CK**: Sigma rule-pack generation, real-time alert enrichment, explainable ATT&CK tagging and Transformer-based rare-event anomaly detection.
- Designed modular Python architectures for log parsing, enrichment pipelines and rule generation, prioritising explainability, detection fidelity and SOC usability over academic benchmarks.

Freelance UI Designer — Self-employed

Mar 2021 – Present

- Designed interfaces, prototypes and brand identities (Figma, Adobe CC), including a full UI/UX design system for a paid Q&A mobile app subcontracted through a design agency.

SELECTED PROJECTS

MNQ Trading Assistant · AI · private build
Telegram assistant for a prop-firm futures trader: automated market briefs, AI chart analysis from screenshots, a code-enforced risk guard (daily stop, consistency cap, trailing drawdown) and end-of-day reviews. Bilingual FR/EN, model fallback and rate-limit handling, ~170 automated tests.
Python · python-telegram-bot · Gemini (vision) · SQLite · yfinance

WFM Management · private platform
ClickUp-style operations platform for WeFrame Media / Studio38: plans, produces, reviews and delivers shoots, edits, posts and podcast episodes from one desk. Login-gated, runs privately for security.
Next.js · TypeScript · role-based access

Moroccan Mirage · moroccanmirage.com
Full-stack luxury-travel site styled like a travel magazine, with a custom trip planner and full tour catalogue.
Next.js · TypeScript · Tailwind

Mahal Productions · film services
Site for a CCM-accredited production services company (est. 1998): permits, customs, crew, locations and Morocco's 30% cash-rebate application.
Next.js · SEO · structured data

Tawada Desert Camp · Izil Morocco · Palais Andara
Cinematic luxury-camp site for Merzouga; a tour operator with six multi-day journeys from four gateways; a riad's EN/FR brochure site plus digital menu.
Next.js · Tailwind · PDF brochures

SigmaPack-Builder · SOAR Mini Enricher
ATT&CK-tagged logic compiled into deploy-ready Sigma YAML rule packs; a FastAPI microservice adding MITRE mapping, severity scoring and triage guidance per alert.
Python · FastAPI · Sigma · MITRE ATT&CK

Morocco Transit · transfers & tours
Trilingual EN/FR/ES site with Arabic and Tifinagh place names, a scroll-driven road journey with live km counter, and a WhatsApp quote flow.
Next.js · i18n · scroll animation

Riad Jabador · riadjabador.com
Rebuilt a medina guest house from WordPress: FR/EN editorial storytelling, eight experiences, gallery, journal and live Cloudbeds booking.
Next.js · Cloudbeds · i18n

Groupe Scolaire Badry · Casablanca
Website for a trilingual private school (kindergarten to middle school, toward the IB) with enrolment flow and WhatsApp contact.
Editorial UI · enrolment funnel

RareGuard · ATT&CK-Tagger
Self-supervised Transformer for rare security-log anomalies with conformal p-values; a rule-based, explainable ATT&CK enrichment engine with confidence scoring.
PyTorch · conformal prediction · JSON log streams

TECHNICAL SKILLS

Languages	TypeScript / JavaScript (ES6+), Python (advanced), SQL, Bash, Java
Frontend	React, Next.js (App Router), Tailwind CSS, Framer Motion, Remotion, i18n, SEO & structured data, accessibility
Backend & Data	Node.js / Express, FastAPI, REST APIs, PostgreSQL, MongoDB, SQLite
AI & Automation	Claude API, Claude Code, MCP, Gemini API (text + vision), n8n, LLM prompt design, Transformers, conformal prediction
Security	MITRE ATT&CK, detection engineering, Sigma, SOC alert enrichment, SOAR, log analysis, OWASP testing
Cloud & Tooling	Vercel, AWS, DigitalOcean, Linux/systemd, Docker (basics), Git/GitHub, Playwright, Robot Framework, Figma

CERTIFICATIONS

- **Anthropic (11):** Building with the Claude API · Claude Code in Action · Claude Code 101 · Model Context Protocol: Advanced Topics · Introduction to MCP · Claude Platform 101 · Claude 101 · Intro to Claude Cowork · AI Fluency (Framework, Students, Educators)
- MITRE ATT&CK Defender · SOC Analyst — Blue Team
- File Security Associate — OPSWAT Academy
- Cloud & DevOps Fundamentals
- Startup Founder Certificate — ALX Ventures

EDUCATION

Full-Stack Engineering — ALX Morocco · 2024

Baccalauréat Scientifique (SVT) — Lycée Mohammed VI, Ouarzazate · 2022

University studies in progress alongside freelance work

LANGUAGES

English (C2) · French (B2) · Arabic (native) · Moroccan Darija
